

Chronic Illness Benefit medicine list (formulary) for Chronic Disease List (CDL) conditions and Additional Disease List (ADL) conditions 2024

Who we are

The Malcor Medical Aid Scheme (referred to as 'the Scheme'), registration number 1547, is the medical scheme that you are a member of. This is a non-profit organisation, registered with the Council for Medical Schemes. Discovery Health (Pty) Ltd (referred to as 'the administrator') is a separate company and an authorised financial services provider (registration number 1997/013480/07). We take care of the administration of your membership for the Scheme.

You can call us on 0860 100 698 or visit www.malcormedicalaid.co.za for more information.

Important information you need to know

We may change the information contained in this document from time to time. We will communicate any changes to the way we pay medicine when we make these changes.

The Chronic Illness Benefit (CIB) is determined by the Malcor Medical Aid Scheme rules. The use of the benefits and programmes linked with the CIB are subject to specific conditions and rules. You must make sure that you know these rules and conditions.

Any instructions or advice on medicine and the management of your condition are intended to add to, and not replace, the knowledge, expertise, skill and judgement of your doctor, pharmacist or other healthcare professional.

Malcor Medical Aid Scheme reserves the right to change the benefit at any time.

You need to apply for cover

The CIB application form needs to be completed by you and your doctor. This fully completed form, including any supporting tests that are required (detailed in the application form), must be submitted to Malcor Medical Aid Scheme for review.

Submission details are on the application form. If the condition is approved, cover only applies from the date of approval.

Explanation of terms

Active ingredient

This is the main substance in a medicine that is responsible for the clinical action on a human body.

Additional Disease List (ADL)

An additional list of chronic conditions covered by Malcor Medical Aid Scheme.

Benefit year

A benefit year refers to the benefits you are entitled to during a calendar year, 1 January to 31 December. This medicine list (formulary) is applicable for 2024 only.

Chronic Disease List (CDL)

A defined list of chronic conditions covered according to Prescribed Minimum Benefits (PMB's).

Medicine class

This describes medicine that have similar chemical structures or similar therapeutic effects.

Prescribed Minimum Benefit (PMB) conditions

The PM CDL is a list of conditions which all medical schemes need to cover on all the plans they offer to their members. This cover includes funding for the diagnosis, treatment and ongoing care for the listed conditions.

Only claims for procedures and consultations listed in the PMB treatment guidelines will be paid from the CIB. These are prorated based on the date of approval of your chronic condition.

Scheme Rate for medicine

The Maximum Medical Aid Price (MMAP®) is the rate that applies to all approved chronic medicine. In the absence of MMAP®, the approved chronic medicine will be funded to a maximum of the Single Exit Price (SEP) plus the Dis-Chem dispensing fee. All other charges in excess of these approved rates will be for your own pocket.
